

Series ALLFUEL AFI

Three-Screw pump for applications up to 40 bar

Pumped liquid

For handling lubricating liquids without any abrasive components in particular lube oils, hydraulic oils and light fuel oils in all industrial fields of application. The pump liquids may not chemically attack the pump material.

Main fields of application

Oil-fired systems, hydraulic installations, mechanical engineering, general industrial technologies, chemical and petrochemical industries, marine and offshore engineering, lube oil applications

Performance data Series ALLFUEL AFI

Capacity	Q	up to 112	l/min
Inlet pressure	ps	up to 5	bar
Discharge pressure	pd	up to 40	bar
Differential pressure	pdiff	up to 40	bar
Viscosity	v	up to 1..750	mm ² /s
Fluid temperature	t	up to 150	°C
Speed	n	up to 3600	1/min

Construction features

- Pedestal mounting
- Dry installation
- In-tank installation
- Vertical installation
- Self - priming
- With shaft sealing
- Horizontal installation and Bulkhead mounting (AFI, AFT and AFM only)
