

### Series TRILUB TRQ

Three-Screw pump for applications up to 13 bar

### Pumped liquid

For handling lubricating liquids without any abrasive components in particular lube oils, hydraulic oils and light fuel oils in all industrial fields of application. The pump liquids may not chemically attack the pump material.

### Main fields of application

Oil-fired systems, hydraulic installations, mechanical engineering, general industrial technologies, chemical and petrochemical industries, marine and offshore engineering, lube oil applications

### Performance data Series TRILUB TRQ

Capacity	Q	up to 2400..7500	l/min
Inlet pressure	ps	up to 3	bar
Discharge pressure	pd	up to 13	bar
Differential pressure	pdiff	up to 10	bar
Viscosity	v	up to 2..800	mm <sup>2</sup> /s
Fluid temperature	t	up to -20..90	°C
Speed	n	up to 1800	1/min

### Construction features

- Pedestal mounting
- Vertical installation
- Self - priming
- With shaft sealing
